

Holmbury Group

Environmental Policy

Revision 11 – July 2025

Environmental Policy

We recognise that our activities have an impact on the environment in terms of the use of raw materials, emissions to air and water, and waste generation, and seek to minimise this as far as is reasonably practicable.

Holmbury is committed to protecting and enhancing the environment, and to updating its practices in the light of advances in technology and new understandings in health and environmental science.

We believe that all companies have a responsibility to conduct their business as responsible members of the environment and to seek profits only through activities that leave the Earth healthy and safe. We believe that companies have a responsibility not to compromise the ability of future generations to sustain their needs. Holmbury will take actions on a continuing basis in furtherance of these aims.

Such actions and improvements plans will include, but not be limited to; energy consumption, use of raw materials, discharges, emissions, noise, packaging and the minimisation and appropriate recycling of waste.

Copies of this policy statement are displayed at Holmbury's premises and are available to Customers, Suppliers, and all other interested parties when requested.

HOLMBURY GROUP is committed to:

- Continual improvement in its environmental performance
- Preventing pollution
- Compliance with all environmental legislation, regulations, and codes of practice relevant to the industry sector in which it operates.
- Make efficient use of natural resources by conserving energy and water, minimising waste, and recycling where possible
- Meet its duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste
- Use recycled construction materials whenever these can be commercially justified
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency
- Work with suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.

HOLMBURY GROUP will review this policy on annual basis, taking account of any changes within legislation and our organisation, and other factors.

We will communicate this policy to all our employees and ensure that they are given appropriate training to raise awareness of environmental issues.

HOLMBURY GROUP will make this policy available when requested to interested parties including members of the public.

James French
